Performance Work Statement (Definition)

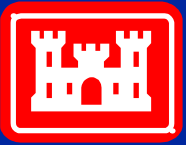

- A statement in the solicitation that identifies the technical, functional, and performance characteristics of USACE's requirements.
- The PWS is performance-based and describes USACE's needs (the "what"), not specific methods for meeting those needs (the "how").
- The PWS identifies essential outcomes to be achieved, specifies USACE's required performance standards, and specifies the location, units, quality and timeliness of the work.
